W. S. ROBINSON. WEED'S

PATENT Sewing Machines

Havegained the confidence of all who use them, and have proved one of the most valuable inventions of the age. They use a shuttle, making the Lock stitch on both sides of the alike, which cannot be unraveled or pull

ut.
They are all made with the highest mechanical idil and all warranted to work well on all kinds of code, from the lightest tabric to heavy leather. In articular, we would call attention of all to our new unity sewing machine. It has been manufactured apressly for family use, and has not with favor oun all. It is so simplified as to render it impossible to get out of order, or derange its operations adoed it is so simple as to astonish one, that so mall a piece of mechanism will sew.

Below we give a description of the differentiatyles (the Weed Parent.)

I the West Patent.

NO. 1. Is a very convenient style which can be orked by hander foot, on or off its own table. For savenisme of shipping and also for large manufacties where it is necessary to place a number of achines into long bench making one table answer at them all. Price 350.

NO. 2. With Walmut or Mahogany Table, either without flow Top, which lower down. Price 100 and atto.

d \$110.

Same size as No 2, but runs with a belt higher rate of speed. This kind is well to manufacture dothing or leather work. a really the cheapest Nachine in the market is no work done on a Sewing Machine that not do. It is sounderly asserted that this cruns easier than any machine now in use 100.

A tries Machine has a long arm, to accomte large work. It runs at a high rate of speed
sally, and is without a doubt, the best Machine
libra use, ever offered to the public. It is also
sally filled for plantation work, as it is very
eyet undersatial and durable, with but little
by to get out of order. Frie 2 iso.

5. This is a new and cheaper style, and a
al favorite for Family. Light Leather, and a
al favorite for Family. Light Leather, and a
at favorite for Family. Light Leather, and a
at favorite for Family. Light Leather, and a
at favorite for Family. Light Leather, and a
so furnishing a strong and durable, yet
use to furnishing a strong and durable, yet
used tasty machine, at a less price than either
above. It runs very easy, rapidly, and is

oncounced the best machine now in market for 188.

No. 8. This is a machine got up on an entirely not seem that the public, and we condensity assert that of family use it has not an equal. It is very light as desired as to be uiterly impossible for it omissible the public, as more represented in the public and the transport of the machine and uses a stratter senter. It is corrected as to be uiterly impossible for it omissible these. It has a tension on bot sides, and carries large supply of thread on the under spool. The actions are gained by two small cranks that rue without perceptible noise. The two threads are correct insuch a manner as never to pull both at the ametime, and consequently, little liable to break. The seam is very clearly and the thread does not reak in washing. It will do soarce work better has any cheep machine now in market, as it uses the solid, and the thread does not reak in washing. It will do soarce work better has any cheep machine now in market, as it uses the solid, and the thread does not reak in washing. It will do soarce work better has any cheep machine now in market, as it uses it, solid, or line with equal facility. Price \$50 in scriptly of the service of the transported for the transported

FLOUR MILLS.

HAVING MADE AN ARRANGEMENT AVING MADE AN ARRANGEMENT with the Fateutee, we are now prepared to furtish to order the above Mills, of any size, borrs and totals. The Shift is simple in its construction, having very little shachnery occupying but little space, and warranted to do more work with the same amount of power, and make as good a quality of flour, as any Mill now manufactured. Proprietors of Saw Mills, especially those that use steam, would find it to their advantage to purchase one of these Mills, for the purpose of doing coatem grinding—either wheat, corn or other grain. The Mill will be sold withor without the boil. The principle of the Mill is equally applicable to the construction of large Merchant Mills, and persons about to build, would do well to call and examine.

We will also furnish with the Mills, Bolting Reels of any site and length, immit Machines, Wheat Cleaners, Flour Packers, etc.

Orders respectfully schetted.
